MAREA

LA DANZA DELLE ONDE

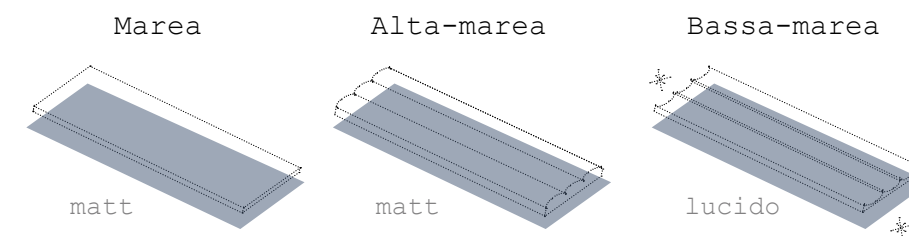

È lungo l'incerto confine che separa il cielo dall'acqua, sfumato dalla danza delle onde che nasce Marea. Una collezione con una tridimensionalità scultorea e rigorosa, minimalista e vibrante di energia, ispirata dai ciclici movimenti del mare influenzati dalla luna.

The dance of the waves.

Marea was born on the uncertain border that separates the sky from the water, blurred by the dance of the waves. It is a minimalist, collection with a meticulous, sculptural three-dimensionality, full of vibrant energy and inspired by the cyclical, moon-driven motion of the sea.

La danse des vagues.

C'est le long de la frontière incertaine qui sépare le ciel de l'eau, ombragée par la danse des vagues, que Marea est née. Une collection à la tridimensionnalité sculpturale et rigoureuse, minimaliste et vibrante d'énergie, inspirée des mouvements cycliques de la mer influencés par la lune.

MAREA

MOVIMENTO CHE DIVENTA FORMA, FORMA CHE DIVENTA DESIGN

Movement that becomes form, form that becomes design. The most distinctive feature of the series is the relationship between tile and space. Alta-marea and Bassa-marea, in fact, play with the zero contour of the surface in opposite ways, one with concave and the other with convex motifs.

The soft forms of its structures have led us to explore new possibilities of interpretation. And create the vision of a contemporary, minimalist aesthetic that influences this collection and everything that surrounds it. Sinuous, undulated forms, ready to contrast with more rigid, essential shapes.

A metaphysical style that is stripped of anything superfluous to highlight the real subject "Marea".

Tratto distintivo della collezione è la relazione che la ceramica intrattiene con lo spazio: Alta-marea e Bassa-marea forzano infatti, seppur in modi opposti, il grado zero della superficie, ora con motivi concavi e ora convessi.

Le forme morbide delle strutture ci hanno condotti ad esplorare nuove possibilità interpretative. Da qui la visione di un'estetica contemporanea e minimalista che influenza la materia e tutto ciò che la circonda. Forme sinuose ed ondulate a contrasto con geometrie più rigide ed essenziali.

Uno stile metafisico che si spoglia del superfluo per lasciare spazio alla vera protagonista "Marea".

Mouvement qui prend forme, forme qui devient design. Une caractéristique distinctive de la collection est la relation que la céramique entretient avec l'espace: en effet, marée haute et marée basse forcent, quoique de manière opposée, le degré zéro de la surface, alternant motifs concaves et motifs convexes.

Les formes douces des structures nous ont amenés à explorer de nouvelles possibilités d'interprétation. D'où la vision d'une esthétique contemporaine et minimaliste qui influence la matière et tout ce qui l'entoure. Des formes sinueuses et ondulées puis en contraste avec des géométries plus rigides et essentielles. Un style métaphysique qui se dépouille du superflu pour faire place au véritable protagoniste "Marea".

Ci appassionano le idee che permettono di portarci lontano, capaci di innescare una reazione a catena, un progetto nel progetto. Siamo partiti dalle forme sinuose del mare che ci hanno ispirato fino al punto di decontestualizzarle: così è nato il nuovo concept QC. La passione, la continua ricerca, l'artigianalità, la voglia di creare qualcosa che prima non c'era, tutto questo è Quintessenza Ceramiche.

We love ideas that carry us faraway, that stimulate a chain reaction, a project within the project. We started from the sinuous forms of the sea that inspired us to decontextualise them. This is how the new QC concept came into being. The passion, the continuous research, the craftsmanship, the desire to create something that was not there before. All this is Quintessenza Ceramiche.
