LAVABO MONTECATINI
1949

COLLEZIONE DI RUBINETTI GIO PONTI

«Un'architettura è davvero bella se è bella ancora cinquant'anni dopo che sorse» sosteneva Gio Ponti parlando di grandi opere, ma questo vale anche per quegli oggetti di design quotidiano alla cui progettazione prestava un'attenzione davvero maniacale, tanto da averne fatto delle intramontabili icone del design. E' il caso del rubinetto da lui disegnato nel 1953 con il caratteristico "angolo pontiano", un gioco di linee e inclinazioni che trasforma la maniglia in una stella, manovrabile con tre dita. Talmente all'avanguardia allora da essere contemporaneo oggi, Mamoli lo produce con i volumi e le proporzioni originali, in tre diverse finiture.

"Architecture is truly beautiful if it is still beautiful fifty years after it was built," Gio Ponti said when talking about great works, but this also applies to those everyday design objects to which he paid truly obsessive attention, so much so that he made them timeless design icons. This is the case of the tap he designed in 1953 with the characteristic "Pontian angle", a play of lines and inclinations that transforms the handle into a star, which can be operated with three fingers. So avant-garde then that it is contemporary today, Mamoli produces it with the original volumes and proportions, in three different finishes.

LAVABO MONTECATINI

Presentato da Mamoli a Fuorisalone 2023, il lavabo Montecatini, disegnato da Gio Ponti nel 1949, è ora disponibile in diverse varianti. Disegnato dal celebre designer in esclusiva per Palazzo Montecatini, questo lavabo è estremamente funzionale, grazie al piano d'appoggio integrato sul lato destro, mentre lo scarico laterale, che non inquina l'estetica del prodotto, lo rende molto elegante.

Concepito come un oggetto d'avanguardia nel volume, nel disegno ed anche nel colore, il lavabo Montecatini ha una forma geometrica lineare ed architettonica in accordo con le linee degli anni '30. La scelta del colore nero inoltre rispondeva alla volontà del designer di creare qualcosa di assolutamente innovativo.

Nati come lavamani per gli uffici di Palazzo Montecatini, nelle foto d'epoca i lavabi appaiono montati in lunghe file, con comando d'acqua calda e fredda a pedale, ma anche con la doppia leva inserita nel piano del lavabo. Mamoli ne fa oggi un lavabo anche per uso anche domestico, perfetto da completare con la rubinetteria della serie Gio Ponti in inox o ottone spazzolato per un intramontabile bagno di design.

Presented by Mamoli at Fuorisalone 2023, the Montecatini washbasin, designed by Gio Ponti in the 1949, is now available in different variants. Designed by the famous designer exclusively for Palazzo Montecatini, this washbasin is extremely functional, thanks to the integrated support surface on the right side, while the side drain, which does not pollute the aesthetics of the product, makes it very elegant.

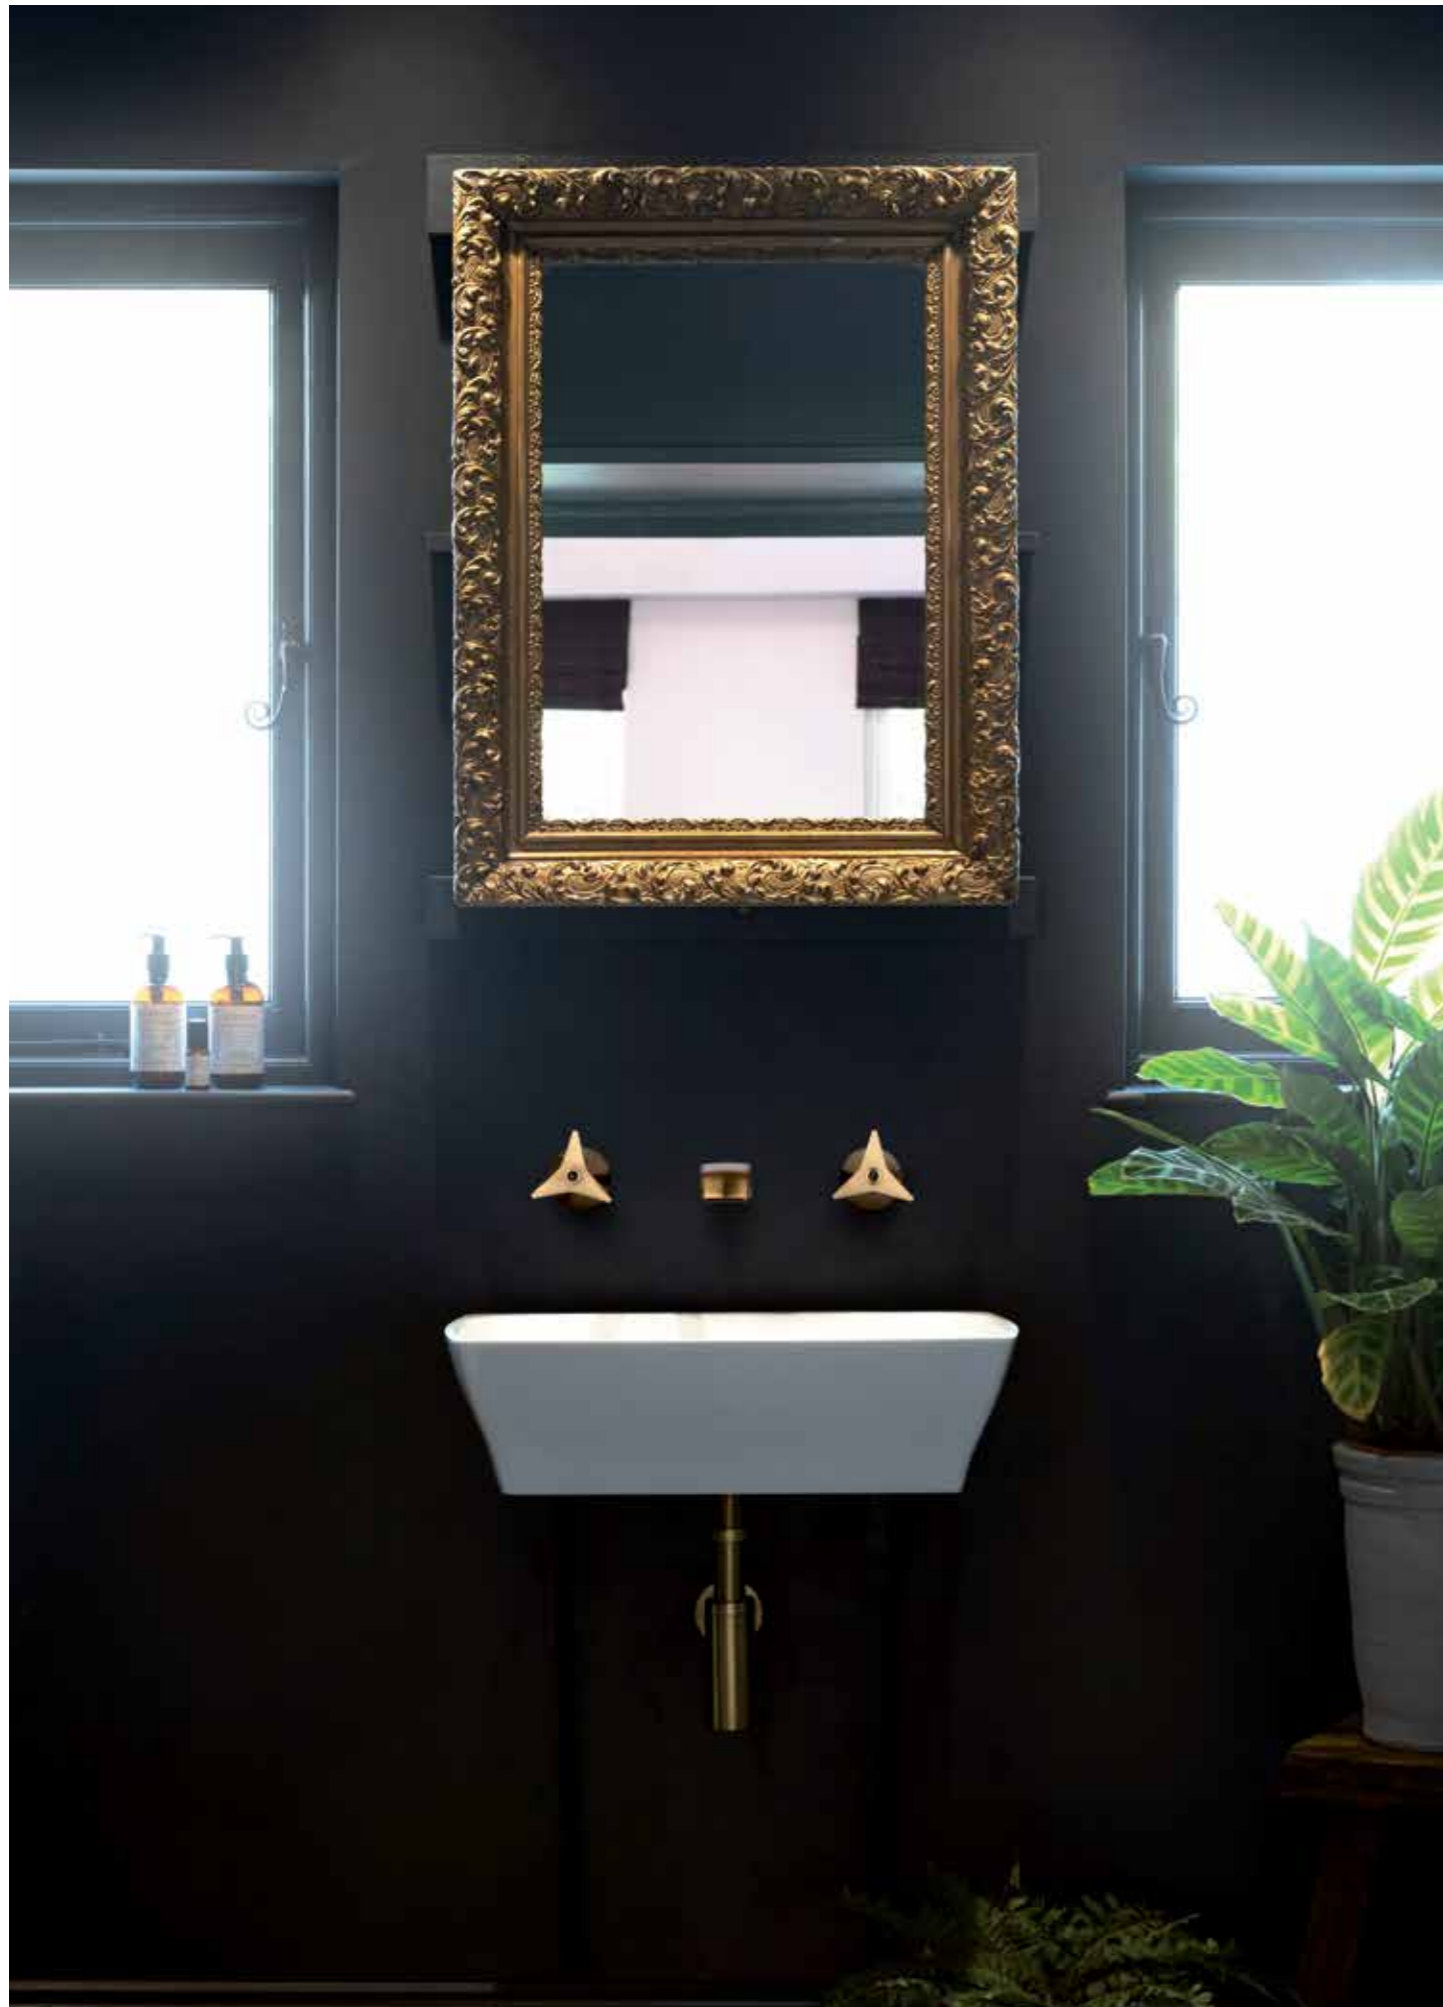

Conceived as an avant-garde object in terms of volume, design and colour, the Montecatini washbasin has a linear and architectural geometric shape in accordance with the lines of the '30s. The choice of the color black also responded to the designer's desire to create something absolutely innovative.

Created as a washbasin for the offices of Palazzo Montecatini, in the period photos the washbasins appear mounted in long rows, with hot and cold water control by pedal, but also with the double lever inserted in the washbasin top. Today, Mamoli also makes it a washbasin for domestic use, perfect to be completed with the taps of the Gio Ponti series in stainless steel or brushed brass for a timeless design bathroom.
