storagemilano

Fondato a Milano nel 2002 da Barbara Ghidoni, Marco Donati e Michele Pasini, storagemilano è uno studio che opera in diversi ambiti del design, dall'architettura all'arredo, e in ogni aspetto del progetto, con particolare attenzione alle forme, sperimentando con materiali insoliti o diversi, con la luce e lo spazio.

Per Mamoli ha disegnato la linea Hexagonal.

Founded in Milan in 2002 by Barbara Ghidoni, Marco Donati and Michele Pasini, storagemilano is a studio that operates in different areas of design, from architecture to furniture, and in every aspect of the project, with particular attention to shapes, experimenting with unusual or different materials, with light and space.

For Mamoli he designed the Hexagonal series.

HEXAGONAL

Gli oggetti più semplici sono spesso i più ricercati. Hexagonal è entrambe le cose. Un rubinetto che nasce da una barra esagonale di ottone scavata, tornita, scaldata a cannello e poi curvata per creare delle bocche dai particolari toni bruciati. Per questo ogni pezzo è unico e sempre diverso. Una serie no finish, senza pdv, cromatura o colorazione, solo ottone naturale che vive e invecchia con la casa, mutando tonalità nel tempo: dorato, bruciato, marrone, bronzo. Ecologico, energy saving all'origine, totalmente riciclabile, naturalmente bello, con i segni del tempo, senza sofisticazioni.

Disegnato per Mamoli da Storage Associati

The simplest items are often the most sought after. Hexagonal is both. A tap that comes from a hexagonal brass bar hollowed out, turned, heated with a torch and then curved to create spouts with particular burnt tones.

This is why each piece is unique and always different.

A no-finish series, without pdv, chrome plating or colouring, only natural brass that lives and ages with the house, changing shades over time: golden, burnt, brown, bronze.

Ecological, energy saving at the origin, totally recyclable, naturally beautiful, with the signs of time, without sophistication.
