CARATTERISTICHE | TECHNICAL SPECS

Guide cassetto
Lo scorrimento su cuscinetti garantisce un comfort d'uso ottimale permettendo uno scorrimento ad alta precisione e un movimento leggero e armonioso.

Drawer guides
Drawers slide comfortably on ball-bearings, always opening and closing easily and perfectly.

Cassetto Soft-Close
I cassetti sono dotati di sistema Soft Close (chiusura ammortizzata) ad estrazione totale.

Soft-Close drawer
All the drawers are "Soft-Close" equipped and are fully extractable

Cassetto con sgancio rapido
Ogni cassetto è fornito di dispositivo di aggancio/sgancio rapido.

Quick release
All drawers have a quick release and coupling system.

Ante Soft Close
Le ante montano cerniere in metallo con Sistema Soft Close (chiusura ammortizzata) regolabili in altezza, larghezza e profondità.

Soft Close doors
All doors are mounted on metal hinges, with the Soft-Close system, and are adjustable (height/width/depth).

Compatibilità
Completa il mobile Smile con un lavabo da mobile

Quick release
Complete the Smile furniture with a furniture basin

CARATTERISTICHE | TECHNICAL SPECS

Teste in acciaio, spessore 1,5 mm;
Tubi in acciaio, diametro 25 mm;
Pressione massima di esercizio: 6 bar;
Temperatura massima d'esercizio: 95°.

Steel heads, 1.5 mm thick;
Steel pipes, 25 mm diameter;
Maximum working pressure: 6 bar;
Maximum operating temperature: 95°.

VERNICIATURA | PAINTING

Verniciatura ad elementi singoli a polveri epossidiche.

Single element painting with epoxy powders.

CERTIFICAZIONI | CERTIFICATION

CE EN 442

CONFEZIONAMENTO | PACKAGING

Imballati in scatola di cartone
Packed in a cardboard box

NUMERO MASSIMO DI ELEMENTI PER BATTERIA
MAXIMUM NUMBER OF ELEMENTS PER BATTERY

Modelli di altezza fino a 1000mm: massimo 30 elementi
Modelli di altezza superiore a 1000mm: massimo 15 elementi

≤ 1000mm height models: max 30 elements
> 1000mm height models: max 15 elements

COMPONIBILITÀ | MODULARITY

Radiatore tubolare in acciaio "scomponibile";
Ogni elemento è singolarmente filettato.
La tenuta idraulica è testata due volte: sul singolo elemento e sulla batteria completa, come previsto dalle Norme EN442.

Comby is a tubular radiator in "decomposable" steel; each element is individually threaded.
The hydraulic seal is tested twice: on the single element and on the complete coil, as required by the EN442 Standards.

TIPOLOGIA DI FORNITURA | SUPPLY MODE

S (Es. ATCOM **S** 9010 02 01 0300)

Fornitura senza tappi e riduzioni (da acquistare separatamente)

Supply with no caps and reductions (sold separately)

W (Es. ATCOM **W** 9010 02 01 0300)

Fornitura e montaggio in fabbrica di 4 riduzioni da 1/2” con valvolina di sfiato e tappino forniti a parte, per ogni batteria +7%.
Prevedere il diaframma (cod. SKMVDIA) nel caso di altezze maggiori di 900 mm con montaggio basso/basso.

Factory supply and assembly of 4 reductions 1/2” with vent valve and cap supplied separately, for each battery +7%.
A diaphragm (code SKMVDIA) is to be added in case of heights greater than 900 mm with low/low mounting.

G (Es. ATCOM **G** 9010 02 01 0300)

Batteria con attacchi dal basso con interasse 50 mm (variabile su richiesta) compresa di diaframma già montato, montaggio di 4 riduzioni da 1/2”, valvolina di sfiato e 3 tappini forniti a parte. Per ogni batteria +93,42 €

Battery with connections from below with 50 mm center distance (variable on request) including diaphragm already mounted, assembly of 4 reductions 1/2”, vent valve and 3 caps sold separately. For each battery +93,42€

GCLI1 S ... Batteria composta da elementi DECORATI da 3 colonne
DECORATED battery consisting of 3 columns elements

Fornito con 4 riduzioni da 1/2"
Assemblato in batterie fino a max 20 elementi.
Sempre inclusi elementi laterali con piedini.
Per batterie di lunghezza superiore a 14 el. verrà aggiunto un elemento con piedino intermedio nel mezzo. Pertanto si consiglia, per batterie con più di 14 el., di ordinarne un numero dispari, in modo che l'elemento con piedino aggiuntivo cada al centro della batteria.

Supplied with 4 1/2" reductions
Assembled in batteries up to max 20 elements.
Side feet included.
For batteries longer than 14 el. an element with intermediate foot in the middle will be added. Therefore it is recommended, for batteries with more than 14 el. , to order an odd number, so that the element with additional foot falls in the center of the battery.

OPERA ELETTRICO | 361
ELECTRIC OPERA

CARATTERISTICHE | TECHNICAL SPECS

Materiale: Tubi in acciaio
Pressione Max d’esercizio: 6 bar
Temperatura Max d’esercizio: 90°C
Riempimento: soluzione diatermica di acqua-glicole, al 15% di glicole propilenico. Temperatura limite di congelamento -5°C

Material: steel pipes
Max working pressure: 6 bars
Max working temperature: 90° C
Filling: diathermic water-glycol solution, 15% propylene glycol. Freezing limit temperature -5 ° C

VERSIONI DISPONIBILI | VERSIONS AVAILABLE

1

CON RESISTENZA TERMOLIMITATA ON/OFF | WITH THERMOLIMITED

Scaldasalviette elettrico con resistenza termolimitata e interruttore on/off, classe d’isolamento I.
Electric towel warmer with thermo-limited and on off switch resistance, insulation class I.

2

CON TERMOSTATO REGOLABILE | WITH ADJUSTABLE THERMOSTAT

Scaldasalviette elettrico con termostato regolabile digitale. Resistenza classe I, cavo liscio, spina shuko. Regolazione a 5 livelli di temperatura, visualizzazione mediante LED. Due funzioni, TIMER per accensione da 1 a 5 ore e funzione AMBIENTE con regolazione e gestione della temperatura desiderata.

Electric towel warmer with digital adjustable thermostat. Class I resistance, smooth cable, shuko plug. 5-level regulation based on room temperature, LED display. Two functions, TIMER for switching on from 1 to 5 hours and function with regulation and management of the desired temperature.

3

CON TERMOSTATO ELETTRONICO ANALOGICO
WITH ANALOG ELECTRONICAL THERMOSTAT

Scaldasalviette elettrico con termostato elettronico analogico con sensore esterno per il mantenimento della temperatura ambiente desiderata e rilevamento “finestra aperta”.
Conforme Eco-Design ErP
Electric towel warmer with analog electronic thermostat with external sensor for maintaining the desired room temperature and “open window” detection. Eco-Design ErP compliant

4

CON TERMOSTATO DIGITALE PROGRAMMABILE
WITH CONFIGURABLE DIGITAL THERMOSTAT

Scaldasalviette elettrico con cronotermostato digitale programmabile giornaliero con ripetizione settimanale, completo di sensore esterno per il mantenimento della temperatura ambiente desiderata e rilevamento “finestra aperta”.
Conforme Eco-Design ErP
Electric towel warmer with daily programmable digital chrono-thermostat with weekly repetition, complete with external sensor for maintaining the desired room temperature and “open window” detection. Eco-Design ErP compliant

VERNICIATURA | PAINTING

Versione bianca e nera: verniciatura a polveri epossidiche
Versione cromata: processo galvanico di nichelatura e cromatura

White and black version: epoxy powder painting
Chromed version: nickel plating and chromium plating

CONFEZIONAMENTO | PACKAGING

Imballati in scatola di cartone
Packed in a cardboard box

IL SISTEMA HEAT ENERGY

CARATTERISTICHE | TECHNICAL SPECS

È un sistema radiante costituito dalla combinazione di pannelli isolanti e tubazioni con installazioni a pavimento per riscaldare l'ambiente tramite irraggiamento. È la migliore soluzione per ottenere un calore uniforme e maggior comfort, abbinato a un reale risparmio energetico ed economico.

It is a radiant system made up of insulating panels and pipes whit flooring installation, which heat the room by radiation.. It is the ideal solution for obtaining uniform heat and greater comfort, combined with real energy and economic savings.

Rispetto ai sistemi tradizionali:
Funziona con acqua a bassa temperatura;
Non solleva polvere, garantendo ambienti più salutari;
Sistema invisibile, consente grande libertà nell'arredamento. Via libera al design!

Compared to traditional systems:
It works with low temperature water;
It does not raise dust, thus guaranteeing healthier environments;
Invisible system, allows greater freedom in furnishing.

L'impiego del sistema pavimento non ha nessun limite, puoi usare il rivestimento che preferisci che sia parquet, ceramica, cotto o moquette.

Ercos risponde all'esigenza della clientela offrendo, mediante il proprio Ufficio Tecnico, una tempestiva risposta alle richieste.

Ercos meets the needs of customers by offering a timely response to requests for quotes via its Technical Department.

COLLETTORI E CASSETTE | MANIFOLDS AND BOXES

SERIE ERCOS PLUS IN OTTONE | ERCOS PLUS SERIES IN BRASS

Collettore di distribuzione da 1” premontato in ottone nichelato composto da collettore di mandata, completo di regolatori micrometrici e misuratori di portata. Collettore di ritorno completo di valvole di intercettazione manuali (termostatizzabili). Staffe di fissaggio disassate con spessori antivibrazione, corredati con: valvole a sfera da 1” (blu e rossa) di alimentazione e bocchettoni con termometri 0-80°. Terminali a ‘T’ con valvole di sfiato automatico e valvole a sfera da ½” (blu e rossa) con porta-gomma per scarico impianto (adattatori per tubo esclusi).

Misura attacchi collettore: G 1” x G 3/4 Eurocono
Pre-assembled 1” distribution manifold in nickel-plated brass composed of delivery manifold, complete with micrometric regulators and flow meters. Return manifold complete with manual shut-off valves (thermostatic). Offset fixing brackets with anti-vibration thickness, equipped with: 1” ball valves (blue and red) for power supply and pipe unions with 0-80° thermometers. ‘T’ terminals with automatic vent valves and ½” ball valves (blue and red) with hose connector for system drain (pipe adapters not included).

Manifold connections size: G 1” x G 3/4 Euroconus

ATTUATORE PRAZ4 | PRAZ4 ACTUATOR

Attuatore termoelettrico ON/OFF normalmente chiuso.
Per comando di un singolo circuito.
Alimentazione 230 V a 4 fili.
(il 4 fili è dotato di microinterruttore ausiliario di fine corsa - contatto n.a.)

ON/OFF thermoelectric actuator normally closed. For the control of a single circuit.
230 V 2-wire or 4-wire power supply (the 4-wire supply is equipped with an auxiliary limit switch - n.m. contact).

Codice Code	**Oggetto** Object	**Scatola** Box
PRAZ4	Attuatore 4 fili 4-wire actuator	1 pz.

TERMOSTATO DI SICUREZZA |
SAFETY THERMOSTAT

Valore di taratura 55°C, cablaggio incluso.
Interrompe la pompa del collettore/pannelli se si supera il valore di taratura.
Completo di molla per fissaggio.

Calibration value 55° C, wiring included.
It stops the manifold/panel pump if the calibration value is exceeded. Complete with spring for fixing.

NOTES

VMC

TORNA ALL'INDICE
BACK TO INDEX

VMC DECENTRALIZZATA | DECENTRALIZED VMC

La VMC puntuale (o decentralizzata) prevede l'installazione di un'unità di ventilazione o di un ingresso aria in ciascun ambiente dell'abitazione. Questa tipologia di impianto non richiede alcun sistema di distribuzione dell'aria e per questo è la soluzione ideale in caso di ristrutturazione di modesta entità.
La VMC puntuale può esser a singolo flusso, singolo flusso alternato con recupero di calore o doppio flusso con recupero di calore.

The punctual VMC (or decentralized), includes installation of an unit of ventilation air inlet in each dwelling environment. This type of system does not require any air distribution system and for this reason it is the ideal solution in the event of a minor restructuring.
The decentralized VMC can be single flow, single alternate flow with heat recovery or double flow with heat recovery.

BENEFICI & VANTAGGI | BENEFITS & ADVANTAGES

SALUTE E IGIENE
Ricambio di aria continuo e autonomo.
Controllo degli inquinanti interni (VOC, CO2, formaldeide..).
Abbattimento della concentrazione del gas Radon.
Riduzione degli inquinanti provenienti dall'esterno (particolati).
Assenza della proliferazione di muffe causata dall'umidità contenuta nell'aria.
Miglioramento della qualità dell'aria particolarmente importante per utenti allergici o con problemi respiratori.

Health and hygiene
Continuous and independent air exchange.
Control of indoor pollutants (VOC, CO2, formaldehyde ..).
Reduction of the concentration of Radon gas.
Reduction of pollutants from the outside (particulates).
Absence of the proliferation of mold caused by the humidity contained in the air.
Air quality improvement particularly important for allergic or respiratory users.

COMFORT
Assenza di correnti d'aria e sbalzi termici.
Controllo dell'umidità interna.
Nessun ingresso di insetti.
Assenza di rumori provenienti dall'esterno.
Evacuazione degli odori interni.
Funzionamento autonomo del sistema, silenzioso anche nelle ore notturne.

Comfort
Absence of air currents and temperature changes.
Indoor humidity control.
No insect entry.
Absence of noise from outside.
Internal odor evacuation.
Autonomous operation of the system, silent even at night.

CERTIFICAZIONE ENERGETICA
Miglioramento della prestazione energetica dell'immobile e aumento del suo valore.

Energy certification
Improvement of the energy performance of the property and increase in its value.

RISPARMIO
Riduzione dei consumi energetici.
Recupero energia termica in modo da limitare l'attivazione dell'impianto di riscaldamento o di raffrescamento.
Riduzione degli inquinanti immessi in atmosfera.

Accelerazione dell'asciugatura dell'involucro edilizio al termine dei lavori.
Beneficio delle detrazioni fiscali secondo i termini di legge in vigore.

Savings
Reduction of energy consumption.
Thermal energy recovery in order to limit the activation of the heating or cooling system.
Reduction of pollutants released into the atmosphere.
Acceleration of the drying of the building envelope at the end of the works.
Benefit of tax deductions according to the terms of the law in force (in Italy).

VMC DECENTRALIZZATA | DECENTRALIZED VMC

da 4,2W | da 10 dB(A) | IPX4

VMC DECENTRALIZZATA | VMC DECENTRALIZED

Unità di VMC decentralizzata a singolo flusso alternato con recupero di calore mediante blocco ceramico interno, a basso consumo energetico. Ideale per installazione in ambienti singoli (soggiorni e stanze da letto). Utilizzabile singolarmente o in abbinamento con altra unità per massimizzare l'efficienza, migliorando il bilanciamento del sistema.

Decentralised single-flow alternating VMC unit with heat recovery via internal ceramic block, low energy consumption.
Ideal for installation in single rooms (living rooms and bedrooms). Can be used individually or in combination with another unit to maximise efficiency and improve system balance.

CONDIZIONI DI FORNITURA

GENERAL TERMS OF TRADE

Il conferimento di un ordine a ERCOS implica l'accettazione delle qui sotto elencate condizioni generali di fornitura, salvo diverso accordo espresso in forma scritta.

1. Ordini

Tutti gli ordini verranno forniti secondo le condizioni standard indicate nel presente accordo.

2. Modifiche e annullamento degli ordini

Non potranno essere accettate modifiche, annullamenti, aggiunte sull'ordine, o richieste di particolari lavorazioni/personalizzazioni salvo preventivo accordo scritto da parte di ERCOS ed esplicita accettazione scritta da parte del cliente delle eventuali maggiorazioni di costo o delle ulteriori spese sostenute a causa di dette variazioni che verranno di conseguenza addebitate.

3. Prezzi e sconti

Le condizioni esposte nel presente accordo sono da intendersi Franco Fabbrica, trasporto e IVA esclusi. Eventuali accordi, intervenuti con terzi, seppur agenti di ERCOS, relativi a prezzi e sconti sul presente listino non sono vincolanti per ERCOS, salvo espressa accettazione scritta da parte di questa. Listini, preventivi, offerte e prezzi, potranno subire in qualsiasi momento variazioni ad insindacabile discrezione di ERCOS.

4. Trasporto e Logistica

a. Aspetti inerenti la gestione logistica

ERCOS si riserva il diritto ad evadere gli ordini anche in più consegne parziali. Qualora il cliente desideri evitare dette consegne parziali dovrà specificarlo chiaramente nell'ordine. ERCOS è esonerata da ogni responsabilità per la mancata o ritardata consegna imputabile all'errata scelta del giorno o dell'orario di consegna al destinatario o all'utilizzo di un mezzo di trasporto non adeguato alle necessità del destinatario, qualora le particolari modalità di consegna inerenti giorni e orari di ricevimento e scarico merce, richieste di consegna con mezzi di trasporto specifici (ad es: motrice, sponda idraulica, camion centinato, ecc.) non siano state esplicitamente richieste nell'ordine. In mancanza di tali indicazioni, ERCOS è infatti autorizzata alla spedizione secondo le modalità e con il mezzo che riterrà opportuni e le eventuali spese dovute alla mancata consegna verranno addebitate al cliente.

b. Responsabilità inerenti la spedizione

La spedizione e le responsabilità connesse sono regolamentate secondo gli incoterms indicati nelle conferme d'ordine. Al ricevimento della merce, il destinatario deve verificare che l'imballo sia intatto, che la merce non sia danneggiata o difettosa e che non vi sia merce mancante o difforme da quanto ordinato. Ogni eventuale reclamo relativo agli imballi, a danni o difetti, ad ammanchi o a qualunque altra contestazione relativa alla merce ricevuta va immediatamente segnalata al trasportatore firmando con riserva il documento di trasporto. La riserva va poi confermata a ERCOS a mezzo lettera raccomandata, fax o posta elettronica a servizioclienti@ercos.it, entro 8 giorni dal ricevimento della merce. Decorso questo termine, il trasportatore sarà liberato da ogni responsabilità sulla merce consegnata e quindi ERCOS si riserva di accettare o respingere a propria discrezione eventuali riserve trasmesse con ritardo. Su richiesta e a spese del destinatario, la merce spedita può comunque essere assicurata contro i rischi del trasporto.

5. Condizioni di pagamento

Le condizioni di pagamento pattuite tra ERCOS e il cliente decorrono dalla data di emissione della fattura, sono tassative e devono essere rispettate in ogni caso, salvo diverso accordo scritto. Eventuali detrazioni o ritardi nei pagamenti motivati da ritardi nelle consegne, contestazioni o reclami di qualunque genere o da note di accredito non ancora emesse o ancora da rivendicazioni d'altro tipo non riconosciute da ERCOS non verranno in alcun caso accettate. L'acquirente rinuncia quindi ad opporre in compensazione a ERCOS eventuali crediti, se non previo pagamento integrale dei propri debiti a quest'ultima. Le spese bancarie relative a mancati o ritardati pagamenti saranno interamente a carico del cliente, mentre gli interessi moratori, verranno addebitati al tasso di cui all'art. 5 D.Lgs 231/02, salvo risarcimento dell'eventuale maggiore danno e fermo restando il diritto di ERCOS a rivalersi per gli importi ad essa dovuti. Le commissioni bancarie e ogni altra spesa relative alla forma di pagamento prescelta sono a carico del cliente. Qualunque irregolarità nei pagamenti comporta l'immediata sospensione della fabbricazione della merce ordinata, nonché delle spedizioni in corso. ERCOS avrà facoltà, ai sensi dell'Art. 1460 C.C., di rifiutare o sospendere le forniture in caso di mora del compratore per qualsiasi importo a suo debito o qualora la sua situazione patrimoniale o finanziaria peggiorasse successivamente alla conclusione del contratto e ancora nel caso in cui siano diminuite le sue garanzie patrimoniali o venga assoggettato a procedure concorsuali. Il mancato pagamento da parte del cliente anche di una sola parte del corrispettivo alla scadenza pattuita, comporterà l'automatica decadenza di quest'ultimo dal beneficio del termine per gli importi dovuti non ancora scaduti, con conseguente obbligo al pagamento immediato dell'intero capitale oltre a interessi e spese. Non si riconoscono pagamenti fatti ad Agenti se non muniti di autorizzazione scritta da parte di ERCOS.

6. Contestazioni e Reclami

Qualunque contestazione o reclamo relativi a merce, danni o difetti dovranno essere comunicati entro 8 giorni dal ricevimento della merce o comunque entro 8 giorni dal momento del palesamento del danno o difetto, posto che la merce oggetto di contestazione non sia stata alterata o manomessa da terzi non autorizzati da ERCOS. Ogni reclamo o contestazione dovrà essere trasmesso a mezzo posta a ERCOS, Via San Faustino, 35, 25040 Monticelli Brusati (BS), Italia o a mezzo e-mail all'indirizzo servizioclienti@ercos.it.

7. Resi

Nessun reso o ritorno di merce potrà essere ad alcun titolo accettato se non preventivamente concordato per iscritto con ERCOS.Per ogni apertura di pratica di reso non autorizzata e/o non conforme di reso l'Azienda applicherà una franchigia fissa di € 15,00 (I.V.A. esclusa) a copertura delle spese gestione pratica e l'addebito delle spese di consegna e rientro del materiale. Non si accettano resi (o annullamento ordini) per prodotti fuori catalogo o speciali, fatto salvo accordo preventivo con il Servizio Clienti. I prodotti non potranno in ogni caso essere resi se non in perfette condizioni per la vendita e nell'imballo originale.

8. Imballaggio

L'imballaggio dei singoli articoli è compreso nel prezzo di vendita ed è normalmente previsto per il successivo raggruppamento della merce su bancale. Eventuali imballaggi speciali o personalizzazioni sono possibili con addebito. L'imballaggio dei radiatori non sarà ripreso.

9. Specificazioni e disegni tecnici

I disegni e le altre specificazioni o dati tecnici contenuti nel presente o in altri supporti informativi pubblicati da ERCOS sono indicativi, non sono vincolanti per ERCOS e non rappresentano quindi un contratto nei confronti di terzi. Per ragioni industriali e in funzione di un continuo sviluppo dei prodotti, ERCOS si riserva quindi di apportare modifiche a dette specificazioni e disegni in qualunque momento, anche senza preavviso. Allo stesso modo, eventuali campioni di prodotto messi a disposizione del cliente non possono rappresentareun vincolo per ERCOS.Le specifiche i disegni, i capitolati, i campioni, i modelli e le attrezzature e i documenti che eventualmente ERCOS S.p.A. avrà comunicato per qualsiasi ragione all'acquirente o che sono comunque contenuti nel presente listino o in altri supporti informativi comunicati da ERCOS S.p.A. resteranno di proprietà di ERCOS S.p.A.. Il cliente si obbliga a tenerli riservati e ad utilizzarli esclusivamente per l'esecuzione del presente contratto.

10. Garanzie

ERCOS S.p.A. dichiara e garantisce che i prodotti dalla medesima fabbricati e commercializzati sono stati costruiti nel pieno rispetto delle normative nazionali ed internazionali regolanti la materia, l'ottima qualità dei materiali usati e la buona costruzione degli apparecchi e ancora che gli stessi sono stati collaudati accuratamente e sottoposti a severe ispezioni dal controllo qualità. Tutti i prodotti di ERCOS sono garantiti per un periodo minimo di due anni dalla data di consegna. Eventuali costi di smontaggio e rimontaggio (manodopera e materiale non ERCOS) verranno riconosciuti solo nel caso in cui il prodotto sia difettoso, non riparabile e il difetto non fosse visibile nel momento dell'installazione e non fosse evidenziabile testando il prodotto prima dell'installazione definitiva. Ogni articolo che entro questo periodo palesi difetti di materiali o di fabbricazione, potrà essere riparato o sostituito a titolo gratuito e Franco Destino a condizione che:

- il cliente esibisca una prova d'acquisto;
- detti difetti vengano tempestivamente e nel dettaglio comunicati per iscritto a ERCOS;
- nessun intervento sia stato effettuato da parte del cliente o di terzi sulla merce difettosa senza il preventivo consenso da parte di ERCOS;
- eventuali interventi di regolazione e/o taratura dei sistemi radianti non sono compresi nella copertura delle condizioni di garanzia;
- La merce sostituita resterà di proprietà di ERCOS. Eventuali sostituzioni o riparazioni avverranno nei limiti di tempo compatibili con le esigenze organizzative del personale organizzato e competente di ERCOS, la quale in ogni caso si impegna ad effettuarle nel più breve tempo possibile. Tali interventi effettuati in garanzia non daranno comunque luogo al prolungamento o al rinnovo della stessa. La garanzia decade per difetti o guasti emersi in seguito a sforzi anormali, custodia insufficiente, manipolazione o ogni altra modifica o errato utilizzo non consentiti da ERCOS e comunque la garanzia decade immediatamente nei seguenti casi:

a. Per i radiatori e gli scalda salviette:

- se l'impianto è stato periodicamente e prolungatamente svuotato;
- installazione in impianti con funzionamento a vapore;
- installazione in impianti a vaso di espansione aperto o comunque non ermeticamente chiusi;
- aggiunta di additivi chimici nell'acqua dell'impianto di riscaldamento;
- presenza di gas, sedimentazioni di fango, residui di metallo o grasso nell'impianto;
- interventi o riparazioni per difetti o guasti eseguiti senza l'autorizzazione scritta di ERCOS, che in questo caso è libera anche da ogni pretesa, del cliente o di terzi, in relazione a richieste di risarcimento danni e rimborsi e altre spese o indennizzi connessi con l'intervento stesso;
- che gli accessori, le parti di ricambio e in special modo i nipples e le guarnizioni utilizzati non siano originali ERCOS;
- che i radiatori non siano stati conservati e immagazzinati in buone condizioni e al riparo dalle intemperie prima di essere installati in cantiere;
- che l'installazione non sia stata realizzata a regola d'arte e conformemente alle norme e agli usi del settore;
- che l'acqua utilizzata per la realizzazione dell'impianto di riscaldamento sia corrosiva e presenti gradi di durezza non compresi nella norma;
- che i radiatori siano stati installati in impianti con una pressione di esercizio superiore a quella massima garantita e indicata a catalogo;
- che i radiatori siano stati installati in impianti con una temperatura di esercizio superiore a quella massima garantita e indicata a catalogo;
- che i radiatori siano stati riverniciati ad una temperatura superiore a 100°C.

b. Per i prodotti bagno e sanitari:

- se l'eventuale deterioramento della cromatura è dovuto all'uso di detersivi acidi abrasivi;
- che l'installazione non sia stata realizzata a regola d'arte e conformemente alle norme e agli usi del settore, nonché alle istruzioni di montaggio fornite da ERCOS in dotazione con ogni articolo. La decadenza della garanzia implica che ERCOS non potrà essere ritenuta responsabile di alcun danno o richiesta di rimborso o risarcimento derivanti da guasti dovuti all'errata installazione, manipolazione o manomissione come sopra indicato. Le parti escludono espressamente ogni altro tipo di garanzia, ivi compresa la garanzia per vizi prevista dagli articoli 1490 e ss.c.c., nei limiti previsti dal comma secondo dell'art. 1490 c.c.; le parti convengono unicamente sulla garanzia di cui al presente punto, sia in relazione all'oggetto che in relazione al contenuto della garanzia medesima.

c. Per sistemi radianti:

- qualora la posa, il collaudo ed il primo avviamento dell'impianto radiante non siano stati realizzati e documentati secondo la Norma UNI EN 1264-4;
- per mancata osservazione delle prescrizioni di sicurezza (mancanza termostato di sicurezza, pressione dell'acqua in impianto troppo elevata), uso incauto o improprio del sistema radiante (temperature impianto radiante troppo elevate);
- se si riscontra antigelo nell'acqua dell'impianto termico;
- se l'acqua dell'impianto termico non è stata condizionata con opportuno trattamento chimico "antialga";
- per funzionalità carente o non conforme dovuta al mancato utilizzo dei materiali secondo lo sviluppo del disegno esecutivo Opefloor;
- per utilizzo nei sistemi radianti di alcuni componenti non forniti da Ercos Spa, che risultino non conformi alla destinazione d'uso;
- per riparazioni improprie non autorizzate da Ercos Spa;

11. Responsabilità civile prodotti

Eventuali danni a terzi provocati da prodotti difettosi sono coperti da polizza assicurativa specifica e quindi verranno gestiti secondo i tempi previsti dalla polizza stessa.

12. Foro competente

In caso di controversia derivante dai rapporti di fornitura disciplinati dalle presenti condizioni generali o comunque con le stesse connesse, sarà competente in via esclusiva l'autorità giudiziaria del Foro di Brescia con espressa, concorde esclusione di qualsiasi altro foro eventualmente concorrente o alternativo.

13. Diritto Applicabile

Tutti i contratti conclusi con ERCOS sono soggetti al diritto italiano. Le parti escludono espressamente l'applicazione delle disposizioni della Convenzione di Vienna sulla vendita internazionale di beni mobili dell'11 aprile 1980, ratificata con legge 11 dicembre 1985, n.765.

14. Traduzioni

Per quanto concerne le traduzioni di queste condizioni generali in una lingua diversa dall'italiano, qualora vi sia disaccordo o incertezza sul significato o sull'interpretazione di una o più di queste disposizioni tradotte, prevale la versione italiana.

15. Conclusione contratto

La conclusione del contratto avverrà dopo l'accettazione in forma scritta da parte di ERCOS dell'ordine ovvero dal momento in cui sia dato inizio all'esecuzione da parte di questa.

16. Trattamento dei dati

Le Parti si impegnano, ciascuna per il proprio, a rispettare le norme in tema di Data Protection (Reg. UE 679/2016 e D.Lgv 30 giugno 2003 n. 196 e ss.mm).
Per informazioni circa i trattamenti di dati personali effettuati dal fornitore, si rimanda all'informativa privacy che viene fornita.

GENERAL TERMS OF TRADE

Placing an order with ERCOS implies acceptance of the general supply conditions listed below, unless otherwise agreed in writing.

1.Orders

All orders will be supplied according to the standard conditions indicated in this agreement.

2. Changes and cancellation of orders

Modifications, cancellations, additions to the order, or requests for particular processes/customizations cannot be accepted unless previously agreed in writing by ERCOS and explicit written acceptance by the customer of any cost increases or additional expenses incurred due to said changes that will be charged accordingly.

3. Prices and discounts

The conditions set out in this agreement are to be understood Ex Works, excluding transport and VAT. Any agreements made with third parties, albeit agents of ERCOS, relating to prices and discounts on this price list are not binding for ERCOS, unless expressly accepted in writing by the latter. Price lists, estimates, offers and prices may undergo changes at any time at the unquestionable discretion of ERCOS.

4. Transport and Logistics

a. Aspects related to logistics management

ERCOS reserves the right to fulfill orders even in several partial deliveries. If the customer wishes to avoid such partial deliveries, he must clearly specify it in the order.ERCOS is exempt from any liability for failed or delayed delivery due to the incorrect choice of the day or time of delivery to the recipient or to the use of a means of transport that is not suitable for the recipient's needs, if the particular delivery methods days and hours of receipt and unloading of goods, requests for delivery with specific means of transport (for example: tractor, tail lift, tilt truck, etc.) have not been explicitly requested in the order. In the absence of such indications, ERCOS is in fact authorized to ship according to the methods and with the means it deems appropriate and any costs due to non-delivery will be charged to the customer.

b. Shipping Responsibilities

Shipping and related responsibilities are regulated according to the incoterms indicated in the order confirmations. Upon receipt of the goods, the recipient must check that the packaging is intact, that the goods are not damaged or defective and that there are no goods missing or different from those ordered. Any complaint relating to the packaging, damage or defects, shortages or any other dispute relating to the goods received must be immediately reported to the carrier by signing the transport document with reserve. The reserve must then be confirmed to ERCOS by registered letter, fax or e-mail to serviziocliente@ercos.it, within 8 days of receipt of the goods. Once this term has elapsed, the carrier will be released from any responsibility for the goods delivered and therefore ERCOS reserves the right to accept or reject any reservations sent late at its own discretion. At the request and expense of the consignee, the shipped goods can in any case be insured against transport risks.

5. Terms of payment

The payment conditions agreed between ERCOS and the customer start from the invoice issue date, are mandatory and must be complied with in any case, unless otherwise agreed in writing. Any deductions or delays in payments motivated by delays in deliveries, disputes or complaints of any kind or by credit notes not yet issued or by claims of any other type not recognized by ERCOS will in no case be accepted. The purchaser therefore waives the right to offset against ERCOS any credits, unless the latter has paid in full its debts. Bank charges relating to missed or delayed payments will be entirely borne by the customer, while default interest will be charged at the rate set forth in art. 5 Legislative Decree 231/02, subject to compensation for any greater damage and without prejudice to the right of ERCOS to claim compensation for the amounts due to it. Bank commissions and any other expenses relating to the chosen form of payment are charged to the customer. Any irregularity in the payments involves the immediate suspension of the production of the ordered goods, as well as of the shipments in progress. ERCOS will have the right, pursuant to Art. 1460 of the Civil Code, to refuse or suspend supplies in the event of default by the buyer for any amount owed to him or if his patrimonial or financial situation worsens after the conclusion of the contract and again in the event that his patrimonial guarantees have decreased or he is subject to bankruptcy proceedings. Failure by the customer to pay even a single part of the consideration on the agreed due date will result in the latter's automatic forfeiture of the benefit of the term for the amounts due not yet due, with the consequent obligation to pay immediately the entire capital plus interest and expenses. Payments made to Agents are not recognized unless provided with written authorization from ERCOS.

6. Disputes and Claims

Any dispute or complaint relating to goods, damages or defects must be communicated within 8 days of receipt of the goods or in any case within 8 days of the moment of disclosure of the damage or defect, provided that the disputed goods have not been altered or tampered with by third parties not authorized by ERCOS. Any complaint or objection must be sent by post to ERCOS, Via San Faustino, 35, 25040 Monticelli Brusati (BS), Italy or by e-mail to serviziocliente@ercos.it.

7. Returns

No return or return of goods can be accepted for any reason unless previously agreed in writing with ERCOS.For each opening of an unauthorized and/or non-compliant return procedure, the Company will apply a fixed deductible of € 15.00 (excluding VAT) to cover the costs of managing the procedure and the charging of the costs of delivery and return of the material . We do not accept returns (or cancellation of orders) for non-catalogue or special products, subject to prior agreement with Customer Service. In any case, the products cannot be returned unless they are in perfect condition for sale and in the original packaging.

8. Packing

The packaging of the individual items is included in the sale price and is normally provided for the subsequent grouping of the goods on a pallet. Any special packaging or customizations are possible against a charge. The packaging of the radiators will not be taken back.

9. Technical specifications and drawings

The drawings and other specifications or technical data contained in this document or in other information media published by ERCOS are indicative, are not binding on ERCOS and therefore do not represent a contract with third parties. For industrial reasons and as a function of continuous product development, ERCOS therefore reserves the right to make changes to said specifications and drawings at any time, even without notice. Likewise, any product samples made available to the customer cannot representa constraint for ERCOS.The specifications, drawings, specifications, samples, models and equipment and documents that ERCOS S.p.A. will have communicated to the buyer for any reason or which are in any case contained in this price list or in other information media communicated by ERCOS S.p.A. will remain the property of ERCOS S.p.A.. The customer undertakes to keep them confidential and to use them exclusively for the execution of this contract.

10. Guarantees

ERCOS SpA declares and guarantees that the products manufactured and marketed by them have been constructed in full compliance with national and international regulations covering the sector, the excellent quality of the materials used and the good construction of the appliances and that they have been thoroughly tested and
subjected to strict quality control inspections. All ERCOS products are guaranteed for a minimum period of two years from the delivery date.
Any disassembly and reassembly costs (labour and non-Ercos material) will only be recognised in the event that the product is defective, cannot be repaired and the defect was not visible at the time of installation and could not be detected by testing the product prior to final installation.
Any item that within this period shows obvious defects in materials or workmanship, can be repaired or replaced free of charge and delivered free of charge provided that:

- the customer provides proof of purchase;
- these defects are promptly and in detail communicated in writing to ERCOS;
- no intervention has been carried out by the customer or third parties on the defective goods without the prior consent of ERCOS;
- any adjustments and/or calibrations of the radiant systems are not included in the guarantee coverage.
- The replaced goods will remain the property of ERCOS. Any replacements or repairs will take place within the time limits compatible with the organisational needs of ERCOS staff, which in any case undertakes to carry them out as quickly as possible. However, these repairs carried out under guarantee will not lead to its extension or renewal. The guarantee is void for defects or failures arising from abnormal stress, insufficient storage, tampering or any other modification or misuse not permitted by ERCOS and in any case the guarantee expires immediately in the following cases:

a. For radiators and towel warmers:

- the system has been periodically emptied for long periods;
- installation in steam-operated systems;
- installation in open or non-hermetically sealed expansion tank systems;
- addition of chemical additives in the water of the heating system;
- presence of gas, sludge sediment, metal or grease residues in the system;
- interventions or repairs for defects or failures that are performed without the written authorisation of ERCOS, which in this case is also free from any claim by the customer or third parties in relation to claims for damages and reimbursements and other expenses or compensation in connection with the intervention;
- the accessories, spare parts and especially the nipples and gaskets used are not original ERCOS parts;
- the radiators have not been kept and stored in good condition and protected from the elements before being installed on site;
- installation has not been carried out in a workmanlike manner and in accordance with the standards and customs of the sector;
- the water used for the construction of the heating system is corrosive and has degrees of hardness not included in the standard;
- the radiators have been installed in systems with an operating pressure that is higher than the maximum guaranteed and indicated in the catalogue;
- the radiators have been installed in systems with an operating temperature that is higher than the maximum guaranteed and indicated in the catalogue;
- the radiators have been repainted at a temperature above 100 ° C.

b. For bathroom and toilet and bidet products:

- any deterioration of the chrome plating is due to the use of acid abrasive detergents;
- installation has not been carried out in a workmanlike manner and in accordance with the standards and customs of the sector, as well as the assembly instructions provided by ERCOS supplied with each item. The forfeiture of the guarantee implies that ERCOS cannot be held responsible for any damage or request for reimbursement or compensation resulting from failures that are due to incorrect installation, manipulation or tampering as indicated above. The parties expressly exclude any other type of guarantee, including the guarantee for defects provided for in articles 1490 et seq. of the Civil Code, within the limits set by the second paragraph of art. 1490 CC; the parties agree only on the guarantee referred to in this paragraph, both in relation to the subject and in relation to the content of the guarantee itself

c. For radiant systems:

- the laying, testing and first start-up of the radiant system have not been carried out and documented according to the UNI EN 1264 - 4 Standard;
- failure to observe safety requirements (lack of safety thermostat, water pressure too high in the system), careless or improper use of the radiant system (radiant system temperatures too high);
- there is anti-freeze in the water of the heating system;
- the water in the heating system has not been conditioned with an appropriate "anti-algae" chemical treatment;
- poor or non-compliant functioning due to failure to use materials that are compliant with the development of the Opefloor executive design;
- components not supplied by Ercos Spa have been used in the radiant systems and are not compliant with the intended use;
- improper repairs not authorised by Ercos Spa;
- any extension of the ten-year guarantee of the complete Opefloor system lapses if materials other than those from Ercos Spa have been used;

11. Product liability

Any damage to third parties caused by defective products is covered by a specific insurance policy and will therefore be managed according to the times set by the policy itself.

12. Jurisdiction

In the event of a dispute deriving from the supply relationships governed by these general conditions or in any case connected with them, the judicial authority of the Court of Brescia will have exclusive jurisdiction with the express, agreed exclusion of any other competing or alternative court.

13. Applicable Law

All contracts concluded with ERCOS are subject to Italian law. The parties expressly exclude the application of the provisions of the Vienna Convention on the international sale of movable property of 11 April 1980, ratified with law 11 December 1985, n.765.

14. Translations

As regards the translations of these general conditions into a language other than Italian, should there be disagreement or uncertainty about the meaning or interpretation of one or more of these translated provisions, the Italian version shall prevail.

15. Conclusion of contract

The conclusion of the contract will take place after the written acceptance of the order by ERCOS or from the moment in which the execution is started by the latter.

16. Data processing

Both parts are committed to compliance with the Data Protection Regulation (UE 679/2016 and D.Lgv 30 giugno 2003 n. 196 e ss.mm). For additional information on how the supplier handled your data, please refer to our Privacy Policy.

A causa degli imprescindibili limiti di stampa le finiture riportate in questa pagina sono puramente indicative.

Due to the limits of printing, the table of colours is puerly representative and is not to be considered as obliging for the manufacturer.
