Vesoi

**...il futuro appartiene a tutti coloro
che credono nella bellezza dei
propri sogni.**

***...the future belongs to those
who believe in the beauty of their
dreams. e. roosevelt (1884-1962)***

d a r e t o b e d i f f e r e n t

vesoi nasce dall'esperienza pratica: agli inizi degli anni '80 l'imprenditore/progettista mario de rosa iniziava a sviluppare concetti di apparecchi per illuminazione che si sono ampliati e modificati nel tempo con un proprio linguaggio espressivo ed oggi in continua evoluzione.

un nostro pay-off recita *37 years young* - aggiungo giovani anche nella mente e nel cuore e con esperienza, quell'esperienza che nasce dalla capacità di fare artigianato al di là della sua classica accezione. vesoi ha sempre avuto grande rispetto per le proprie origini, la sua localizzazione *in primis* e valorizzando la propria tradizione vetraria ha intrapreso percorsi ed esperienze che la hanno portato alla realtà che è oggi, con curiosità e voglia di semplicità, mai semplicemente. la semplicità è una filosofia che può essere applicata quasi a tutto nella vita, è prima di tutto un approccio culturale, un modo di sentire il cambiamento e di pensare che esistono sempre soluzioni semplici che dall'interazione tra leggerezza e forme, luci ed ombre determinano il nostro senso di spazio.

fare luce per noi è anche fornire gli strumenti a chi progetta spazi per creare qualcosa di semplice e straordinario insieme, è andare oltre l'apparecchio, un modo di pensare e di essere così come la capacità di rappresentare la cultura interdisciplinare di oggi che è alla base della nostra affermazione e consenso per aver saputo intuire a volte anticipare tendenze, oscillazioni del gusto del vivere contemporaneo.

offrire soluzioni per gli spazi è il nostro impegno suggerendo una diversa cultura della luce centrata sulla flessibilità di vere microarchitetture, anche domestiche, certi che buona luce... significa anche buona qualità nel vivere lo spazio.

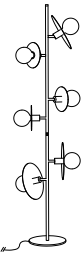

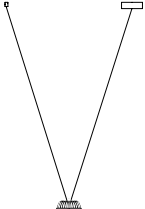

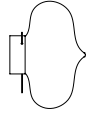

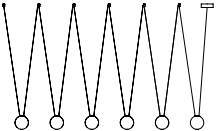

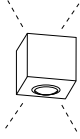

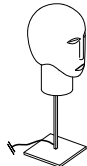

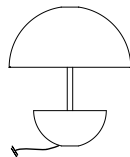

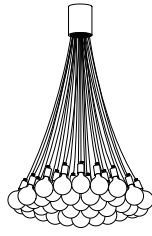

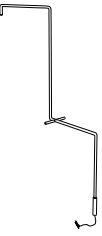

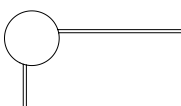

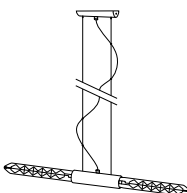

con una rete di collaborazioni creata nel tempo e fatta di realtà artigiane ed industriali, consulenti, condividiamo passione ed esperienze per l'evoluzione tecnologica, riconoscibilità e coerenza di stile nella ricerca di sistemi, apparecchi e componenti. ndr

vesoi idea is born from practical experience: in the 1980s, the businessman/designer mario de rosa developed lighting luminaires concepts that have expanded and changed over time with their own constantly evolving expressive language.

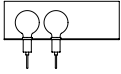

our pay-off says 37 years young - yes young but with experience, experience that comes from the ability to make craftsmanship beyond its classic meaning. vesoi has always had great respect for its origins, trying to enhance the paths and experiences that led to the company's foundation in 1981 with curiosity and desire to discover the unusual daily life with simplicity, not simply. simplicity is a philosophy that can be applied almost to everything in life, it is first of all a cultural approach, a way of feeling change and thinking that there are always simple solutions that determine our sense of space from the skilful interaction between lightness, light and shadows. make light for us is also an invitation: to give the tools to those who design spaces to create at the same time something simple and extraordinary expressing their own personality. it's going beyond the lighting luminaires, it is a way of thinking and being: giving people luminaires for their spaces with a different light culture, because good light also means good quality of life. vesoi bases its mindset and consensus to ability to represent contemporary culture perceiving and sometimes anticipating trends and transformations of taste of contemporary living.

mindful to technological evolution, research is carried out on systems and components seeking their own design made of recognizability and homogeneity of style. over the years vesoi company wanted and built a network with industrial, artisan and consulting companies to shares the passion for quality, innovation and skills every day.

 in conformità con quanto previsto dalla direttiva CEE del 01.01.1996 vesoi applica il marchio indicato nei dati di targa dei suoi prodotti dichiarandone la conformità alle caratteristiche dei prodotti. Le direttive applicate per la verifica dei prodotti sono la LVD 2014/35/UE, EMC 2014/30/UE, RoHS 2011/65/UE ed Ecodesign 2009/125/CE.

in conformity with the provisions of the 01-01-1996 eec directive, vesoi places the mark on all its products depending on the characteristics of the products. directives applied for the verification of the products are the LVD 2014/35/UE, EMC 2014/30/UE, RoHS 2011/65/UE and Ecodesign 2009/125/CE.

il marchio IMQ garantisce per l'Italia il rispetto delle norme EN60958-1, ovvero il prodotto è stato certificato da appositi laboratori che ne riconoscono il rispetto e l'applicazione.

IMQ certification mark guarantees that a product respects the EN 60958-1 regulations, and that this has been verified by authorised laboratories.

apparecchio conforme alla norma VDE 0710 parte 14, può essere installato all'interno di mobili normalmente o difficilmente infiammabili.

luminaire conforming to part 14 of the vde0710 regulations, i.e. that can be mounted inside furniture with standard or reduced inflammability characteristics.

apparecchio alimentato da rete a 230v AC con connessione a circuito di protezione per gli apparecchi di classe I.

luminaire fed by 230v ac with connection a protection circuit for class I luminaire.

apparecchio di classe II dove l'isolamento è garantito non solo dalla presenza di quello fondamentale ma anche da misure di sicurezza supplementari come il "doppio isolamento"; queste misure non comportano messa a terra e non dipendono dalle condizioni di installazione.

class II fitment where insulation is guaranteed not only by the presence of basic insulating measures but also by extra safety precautions such as "double insulation", which do not require earth connection or special installation methods.

apparecchio classe III dove l'isolamento si basa unicamente sull'alimentazione in bassissima tensione; non deve essere provvisto di messa a terra di protezione.

class III luminaire where insulation is based solely on low voltage current and does not require a protective earth connection.

IP 44

apparecchio protetto da corpi solidi superiori a 1,0mm e protetto contro gli spruzzi d'acqua, ideale per installazione in bagno.

fitment protected by solid covering more than 1 millimetre thick and protected against water splashes, therefore suitable for bathroom use.

RoHS 2 i prodotti vesoi rispettano la direttiva 2011/65/CE "restriction of hazardous substances directive" che impone restrizioni sull'uso delle seguenti sostanze: piombo, mercurio, cadmio, cromo esavalente, bifenili polibromurati (pbb) e etere di difenile polibromurato (pbde).

all vesoi products conform with the 2011/65/CE restriction of hazardous substances directive regulating the use of lead, mercury, cadmium, hexavalent chrome, polybrominated biphenyl (pbb) and polybrominated diphenyl ethers (pbde).

apparecchi con sorgenti luminose ed apparati elettronici conformi alle norme generali sul risparmio energetico.

luminaire with electric light bulbs, or other electronic gear in conformity with general regulations covering energy saving.

è possibile grazie al fenomeno della rifrazione ottenere un'immagine riflessa non solo con gli specchi ma con una superficie d'acqua o altro materiale come ad esempio il vetro. il passaggio dei raggi di luce si propaga nell'aria ed a contatto con la superficie non si trasmettono in linea retta ma subiscono variazioni di angolo.

thanks to refraction phenomenon you can get a reflected image not only with mirrors but also, for example, with a surface of water or some other material such as glass. the passage of light rays propagates in the air in contact with the surface are not transmitted in a straight line but undergoes angular variations.

i prodotti vesoi sono costruiti secondo le norme en 60598-1 alla tensione di 230V o 110V in alcuni casi. tutte le dimensioni sono espresse in centimetri. gli apparecchi sono generalmente forniti senza lampade, salvo diverse indicazioni. le istruzioni di montaggio e di manutenzione sono incluse negli imballi oltre che sul sito web. le indicazioni dei materiali, delle finiture e dei colori riguardano solo le principali parti visibili dei prodotti. alcune parti possono mostrare differenti sfumature di colore che sono proprie del processo galvanico di finitura e non sono da considerarsi come difformità. il processo di spazzolatura delle superfici è realizzato a mano e le sfumature sono proprie del processo manuale. nei prodotti realizzati artigianalmente gli ingombri di massima possono subire variazioni in un range di +/- 1cm. i vetri soffiati sono prodotti artigianalmente e possono avere spessori, colori e finiture variabili che ne costituiscono l'unicità. vesoi si riserva di apportare qualsiasi modifica tecnica o formale senza preavviso, soprattutto per quanto concerne le sorgenti led. i dati relativi ai flussi luminosi, ai consumi ed alle potenze si riferiscono a valori reali forniti dai produttori e sono indicate nelle schede disponibili sul sito. la garanzia è indicata nel foglio d'istruzione allegato ad ogni apparecchio, solo alcuni apparecchi vengono forniti con la sorgente che vesoi suggerisce per la miglior resa e funzionalità. quando incluse sono da ritenersi esclusivamente come un servizio gratuito accessorio offerto al cliente, il cui costo non fa pertanto parte del prezzo dell'apparecchio. vesoi non sarà dunque responsabile di alcuna sostituzione o servizio post-vendita in caso di malfunzionamento. su eventuali discrepanze delle informazioni tra documenti cartacei e sito web, prevalgono le informazioni del sito.

vesoi products are designed and manufactured in compliance with en 60598-1 norms at main voltage of 230V or 110V in someone. dimensions are indicated in centimetres. luminaires are normally supplied without light sources, except when otherwise indicated. assembly and maintenance instructions are included in the packaging as well as on the website. the indications of the materials, finishes and colors observe only the main visible parts of the products. some parts may show different shades of color that are typical of the galvanic finishing process and are not to be considered as differences. polishing process is hand-made and shades are therefore due to this manual process. dimensions of products made with deformations of extrusions could be subject to changes of +/- 1cm. as blown glass are produced handmade and its thickness, colour and finish are subject to variations, a feature that makes each piece unique. vesoi reserves the right to make any technical or formal alterations to its products without giving prior notice, especially for led sources. information concerning luminous flux/ power consumption are expressed in real values provided by our suppliers and are indicated in data sheets available on the site. warranty conditions are indicated in data sheet attached to each luminaire. luminaires supplied with the bulb included that suggests improving the functionality, the same is a free service to the customer. the cost of the bulb is not included in the price of the product and therefore vesoi has not responsibility for any replacement in case of malfunctioning of the bulb. in case of discrepancy between the information and date printed in catalogues, price list and website, you may consider info on the website updated.
